

## What You Gonna Do ? - Bm

(inspired by the words of Florence Reece's "Which Side Are You On ?", and in the style of the great Woody Guthrie. Gospel overtones.)

1. The weather it is changin'  
The skies are turning grey,  
Our planet's gettin' warmer,  
Maybe soon, our judgement day.

What you gonna do boy, what you gonna do ?  
What you gonna do boy, what you gonna do ?

2. Now some folk say "don't worry,  
Just relax, and have no fear,  
That warmin' that they're talking about  
Won't be here for a thousand years."

What you gonna...etc.

3. Now some folk here among us  
They speak with fork-ed tongue  
Sayin' "sit back and take it easy  
Judgement day will never come."

What you gonna...etc.

4. Our children they'll go hungry  
Our children they will cry  
Our children they will curse us  
When they know we didn't try.

What you gonna...etc.

5. So listen to me people,  
Your attention I do crave  
It's time we were a movin'  
To save us all from an early grave.

What you gonna...etc.
